SUMMARY

Frontend-focused full-stack developer building responsive, production-grade interfaces with React, Next.js, and Tailwind CSS. Experienced translating business requirements into clean, component-driven UIs for real client systems — school portals, hotel platforms, and e-commerce stores. Comfortable owning the frontend of a product end-to-end, from architecture through deployment.

EXPERIENCE

Full-Stack Developer — Freelance · Open Source · Academic Projects

2022 – Present

- Built responsive, mobile-first UI/UX interfaces with React.js, Next.js, and Tailwind CSS, applying component-driven architecture and accessibility principles
- Designed and developed frontends for production business systems, including school portals, hotel management platforms, and e-commerce storefronts
- Integrated frontend applications with RESTful APIs and third-party services including Paystack payments
- Collaborated directly with clients to translate business requirements into polished, functional interfaces

PROJECTS

School Management System (EduPortal)

A production-grade multi-school SaaS with student portals, result computation, and a role-based admin dashboard.

Next.jsReactTailwind CSS

- Built a role-based admin dashboard and student portal UI serving multiple schools from one codebase
- Implemented result computation views and fee-payment flows (Paystack) with clear, guided UI states
- Designed a responsive interface supporting admins, teachers, and students across devices

Demonstrates: component architecture and UI design for a multi-tenant, role-based production system

Hotel Management System (StayEase)

A full hotel management interface covering room booking, guest records, and an admin control panel.

JavaScriptBootstrapPHP

- Built the room-booking and guest-record UI, including a full admin control panel
- Designed booking flows integrated with Paystack payment confirmation
- Delivered a clean, staff-facing interface for day-to-day hotel operations

Demonstrates: practical UI design for a real, in-use business operations tool

SKILLS

Frontend

React.jsNext.jsTailwind CSSBootstrapHTML5/CSS3

Languages

JavaScriptTypeScriptPHPPython

Core Concepts

Component ArchitectureResponsive DesignAccessibilityREST APIs

Backend (familiar with)

Node.jsExpress.jsDjangoPostgreSQLMySQL

Tools & DevOps
